---

Our Dressage Camp Provides Intensive Dressage Instruction (With Top-Notch, USDF Fourth-Level Certified Instructors,) In A Relaxed, Camp-Like Atmosphere, That's Away From Life's Daily Interruptions!!

---

## THE INSTRUCTORS

**Pam Lifton Bancker** - (Clermont, Georgia) Pam has taught at many of Grand Haven's Adult Dressage Camps over the years, and she returns again & again due to popular demand! She provides educational excellence and international-level training to students up & down the East Coast, from training through FEI levels. She gives special emphasis to the logical & patient development of both horse & rider, which has inspired her own "Rational Dressage Method." A former student of three-time Olympian, Robert Dover, and German-Certified international coach, Eicke VonVeltheim, Pam has remained active in the competition arena. She has trained & shown several horses through Grand Prix, and has earned her USDF Bronze, Silver & Gold Medals. Besides teaching and training, she also has served on the USDF Presidential Committee for Education, The President's Committee on competitive test guidelines, and has been a contributing editor to the USDF Instructor's Manual. Pam is a USDF Certified Instructor through fourth level.

**Susan Hoffman Peacock** - (Corona, CA) Grand Haven is happy to again welcome Susan for the 7th year. She and Pam have run several camps together at various locations around the country, and very successfully at Grand Haven. Susan believes in the correct foundation for good training, and has spent years pursuing that ideal. She participated in the USDF Instructor Certification program and became the first Southern Californian to pass the difficult exam to the highest level offered. She has continued to expand her knowledge by learning from American-based instructors, as well as traveling abroad. Years ago, she received the Major Anders Lindgren Scholarship, which allowed her to enjoy an extended stay at Johann Hinnamann's stable in Germany.

Compassion, humor & clarity are the basis of Susan's personal teaching style. She uses all of her tools and experiences to implement a highly personalized training program at her home, Hidden River Ranch. Her program utilizes suppling work, engagement, cavalleti and lunge work, as well as jumping to meet specific training goals.
